

Precautionary Statements:

If spilled, surface will become extremely slippery. No Protective clothing is required. However, gloves and eye protection should be worn when handling and mixing. May cause skin and eye irritation in some individuals. If product comes in contact with skin, wash thoroughly with soap and water. If product comes in contact with eyes, flush for 15 minutes with pure water. If irritation persists, seek medical attention. NO KNOWN ENVIRONMENTAL HAZARDS.

Storage and Disposal:

Avoid storage that may result in freezing. Store at temperatures above 40°F.

KEEP OUT OF REACH OF CHILDREN AND ANIMALS.

Store in cool dry area, avoid high temperatures, and carefully open containers. Shelf life of this product is one (1) year or longer if maintained at temperatures below 70°F and above 40°F. Slight discoloration may occur after time without product being affected. In case of spill, confine with any absorbent material. Use absorbent towels or pads to soak up spill. Then wash area with soap and water.

Note: Wear slip resistant shoes when handling spills.

Dispose at any sanitary landfill or other waste disposal site. (Follow all State and Federal disposal laws.)

Warranty:

Innovative Turf Solutions makes no warranty, either expressed or implied, concerning the use of this product other than indicated on the label. Innovative Turf Solutions' recommendations for the use of this product are based on tests believed to be reliable. The use and application of the product is beyond the control of the manufacturer, therefore no guarantees or warranties are expressed or implied relating to the effectiveness or performance of the product.

SD605

DUST ABATEMENT

SUPERIOR DUST BED PENETRATION

EXCELLENT LATERAL MOVEMENT

IMPROVES DEEP WETTING

Used to reduce dust by penetrating deep and moving horizontally binding soil particles together. Forms a surface crust that extends several inches into the soil. Cost effective long lasting dust control.

When applied it will develop a harden surface with deep penetration. Produces a rigid substructure deep into the dust bed. Excellent for deep powdery dust.

Net Contents: 5 Gallons unless indicated below.

55 Gallons

275 Gallons

300 Gallons

Chemical Description:

Coconut Alkanolamide, Complex copolymer, humectants, sulfates and proprietary additives.

Recommended Rates and Information:

Apply 1 part product to 2-25 parts water. Insure an adequate amount of waterproduct mixture is applied to obtain the desired results. Increasing the waterproduct mixture applied per square foot will produce deeper dust bed penetration and improved efficacy.

Test a small area to determine your requirement. Your conditions may require more than the recommended rates. In some applications the initial installment of product mixture may require more than the recommended ratio, followed by low rate maintenance applications for long term control. Other application may require less than the recommended ratio.

Allow the application to partially dry before use of heavy machinery or trucks.

Improper application will adversely affect performance.

Tank Mixing Instructions:

Add SD605 to ¼ full sprayer tank while filling. Insuring adequate mixing. DO NOT POUR INTO AN EMPTY TANK.
